HARITIANA RANAIVOJAONA

Full-Stack Developer | React Native · NestJS · Microservices | UI Designer

Antananarivo, Madagascar (UTC+3) | +261 32 84 831 82 | rhartiana.fanomezana@gmail.com
Portfolio: haritiana.is-a.dev | github.com/Arthas0112 | linkedin.com/in/haritiana-fanomezana-ranaivojaona-4a31b4239

PROFESSIONAL SUMMARY

Full-stack developer who builds products end to end: React Native mobile apps, React web back offices, NestJS APIs and microservices, all the way to production. Built the Nona platform (Play Store release, 10 NestJS microservices behind a BFF) and mentored 4 interns. With 5 years of graphic design behind me, I care as much about the interface as the architecture.

TECHNICAL SKILLS

Frontend & Mobile:	React Native, ReactJS, Vite, TanStack Router, Redux, Context API, TypeScript, JavaScript, HTML/CSS
Backend:	NestJS (microservices, BFF), Node.js, Strapi, Kafka, Redis, Stripe, Spring Boot (Java), C#/.NET
Database:	PostgreSQL, MongoDB
DevOps & Tools:	Docker, nginx, PM2, Fastlane, GitLab, Grafana, Jest, k6, Swagger, Firebase, UML, Agile
Design Software:	Adobe Creative Suite (Photoshop, Illustrator, InDesign, Premiere Pro, After Effects, Lightroom), Adobe XD

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Razone, Antananarivo

April 2025 – Present

- Built Nona end to end, a social platform for activities and events: React Native app published on the Google Play Store, React admin panel (Vite, TanStack Router), NestJS BFF and 10 microservices
- Designed the backend around Kafka, Redis, PostgreSQL, MongoDB and Stripe payments, containerized with Docker and served behind nginx on a VPS
- Moved 12 routes to the BFF with a production nginx switchover, backed by 64 passing integration tests
- Automated mobile builds and Play Store releases with Fastlane
- Autohub (vehicle buy/rent/sell app, iOS, Android and web): maintained the Strapi v3 / Node.js backend, migrated deployment from Docker Compose to PM2, added sign-up with terms and conditions acceptance
- Mentored and trained 4 interns on the whole stack: 3 on Autohub, 1 on another project

Web Application Designer & Developer | MATAgri, Antananarivo

May 2024

- Designed and developed an agricultural equipment rental and sharing website using ReactJS, Bootstrap, Java Spring Boot, and PostgreSQL
- Created responsive front-end interfaces and implemented robust backend functionality to support equipment management and user transactions

Desktop Application Designer & Developer | MATAgri, Antananarivo

January 2024

- Conducted comprehensive requirements analysis and UML design for agricultural equipment rental application
- Authored detailed functional and technical specifications to guide development process
- Developed desktop application using XAML, C#, and PostgreSQL with focus on delivery logistics

Graphic Designer | Freelance, Antananarivo

January 2021 – Present

- Created custom mockups, posters, logos, and brand identity materials for diverse clients
- Managed client relationships and delivered creative solutions aligned with business objectives

Print Graphic Designer | GDC, Antananarivo

June 2023 – August 2023

- Designed banners, roll-ups, and advertising posters for print production

Photographer | Freelance, Antananarivo

January 2021 – Present

- Provided event photography services including shooting and post-production editing

Conference Camera Operator | Multimedia Praise Center, Antananarivo

August 2021 – June 2023

- Captured high-quality photographs during conferences and events

EDUCATION & TRAINING

TESOL/TEFL Certification

LaRuche Madagascar, Antananarivo | December 2024 – May 2025
